			Modification Name >	Author	Version	Status	Date Added	Action
			Purpletree amazing theme	purpletree	3.x	Enabled	18/05/2018	∞ ○

- Now you need to delete cache from '/system/storage/cache' folder.
- Now you have to give access permission to the admin. So go to 'System->Users->User Groups' and edit 'Admin' permissions.

*
Ŧ
*

- Give access permission to all the files/folders having prefix 'purpletree_'.
- Now go to Extensions > Extension, and from dropdown select Modules. You'll find a list
 of modules provided by purpletree theme. Check for the 'Purpletree Theme Setting'.

List of modules inside theme :-

- Purpletree Home Banner
- Purpletree Side Banner
- Purpletree Popular Category
- Purpletree Top Rated Products
- Purpletree Filter Setting
- Purpletree Recently Viewed Products
- Find "Purpletree Theme Settings" and click on Install Icon to install.
- After successfully installing, click on edit button besides it to configure the theme settings.
