Introduction

If you want to run mobile application for OpenCart, you need to install following components:

1. Opencart 3.x
 - a. Purpletree Extension - Opencart Multivendor [Sold separately, optional]
2. OpenCart Web Service Extension – Supplied with the mobile application purchase

We assume you have already completed first step. In this guide we deal with the 2nd step, and then we discuss how to configure the mobile app.

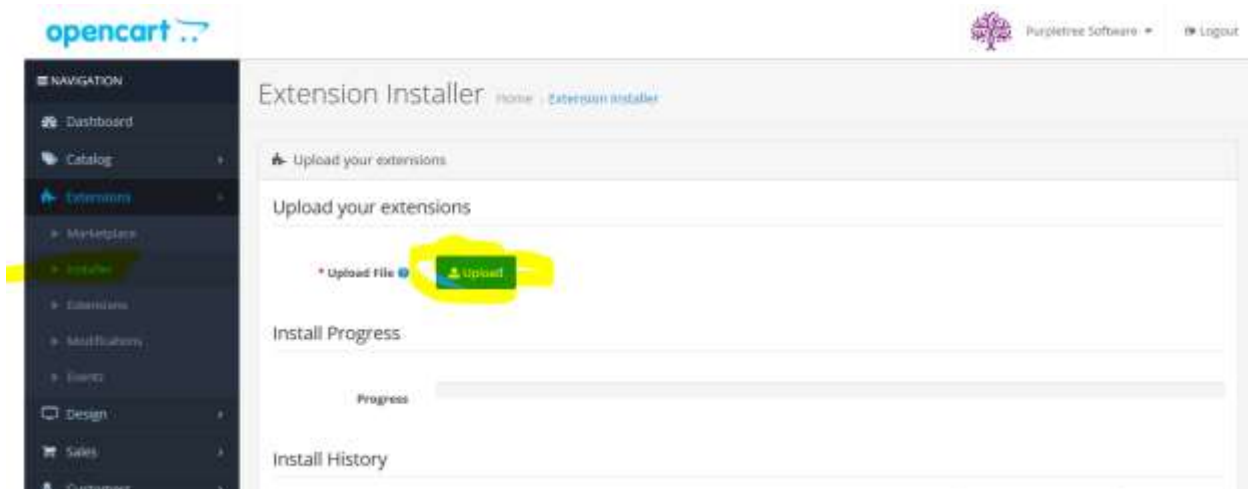

For any support issues, please open a ticket from [here](#).

Installing and configuring Opencart API Extension

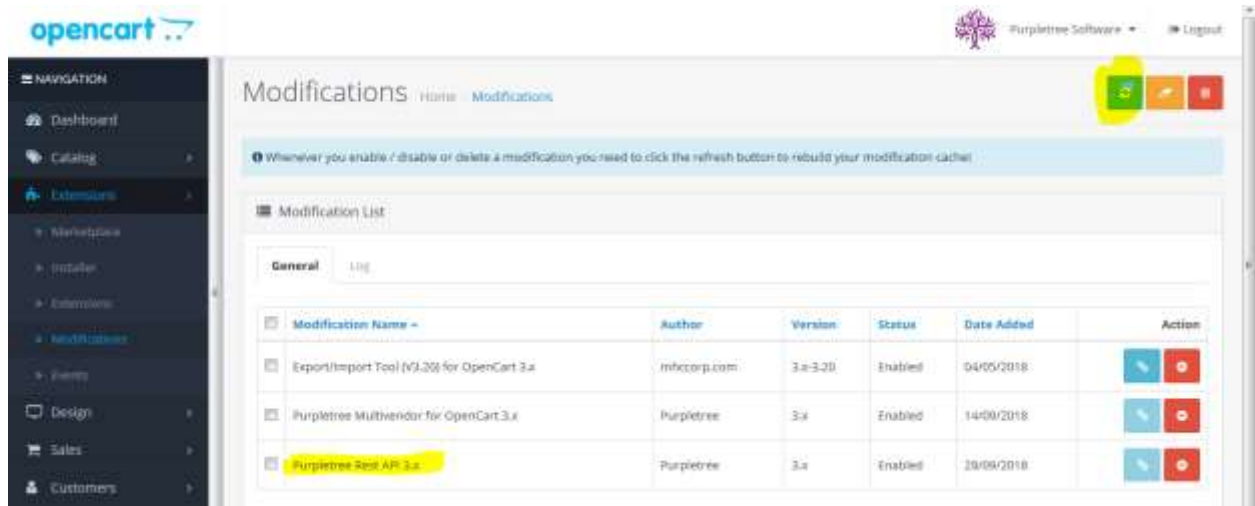

- Install Purpletree Rest API Latest Version.

Installation

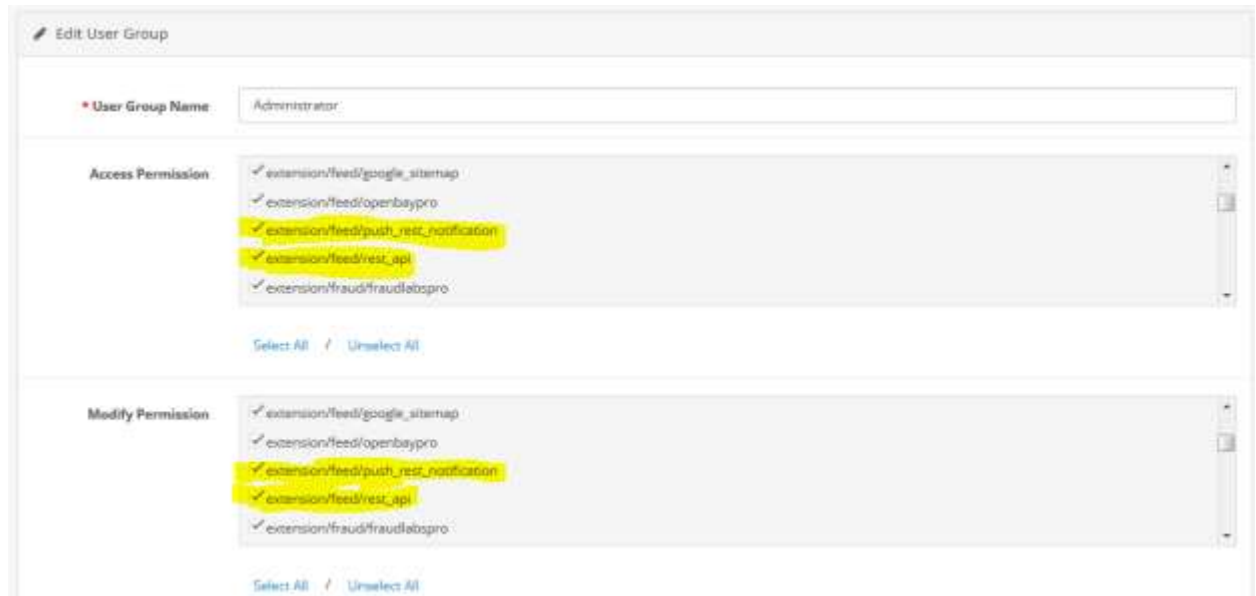

- Login to admin panel.
- Go to Extensions > Installer.
- Upload “**purpletree-rest_api.ocmod.zip**” file.

- Go to Extensions > Modification.
- You will see new Modification Named as “Purpletree Rest API 3.x”.
- Click on Refresh Button on top right.

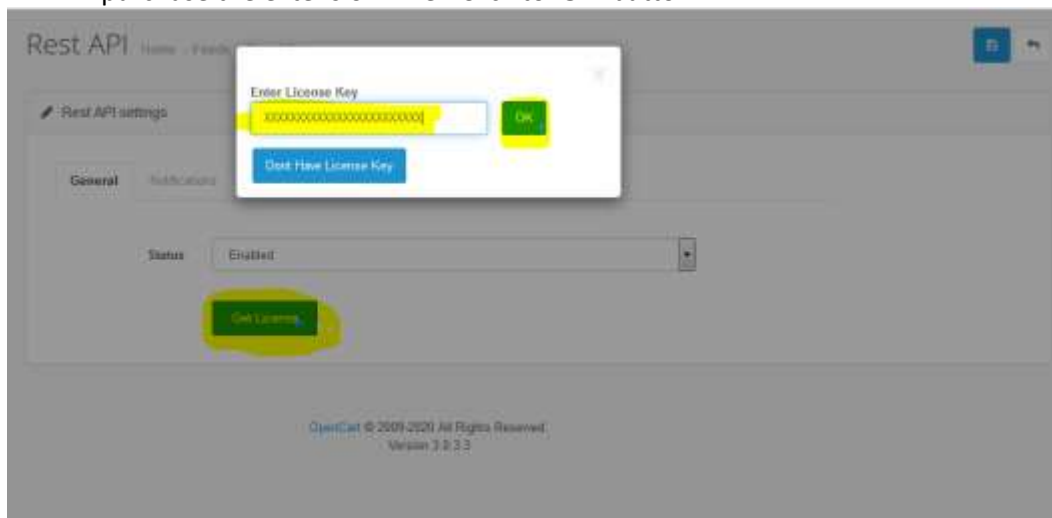

- Set User group permissions for admin. Go to System > Users > User Groups
- Tick Mark “**extension/feed/rest_api**” and “**extension/feed/push_rest_notification**” in Access Permission and Modify Permission Save Changes.

- Go to Extensions > Extensions.
- From choose the extension type, select Feeds from Dropdown.
- Find Rest API, Install it and click on edit button.

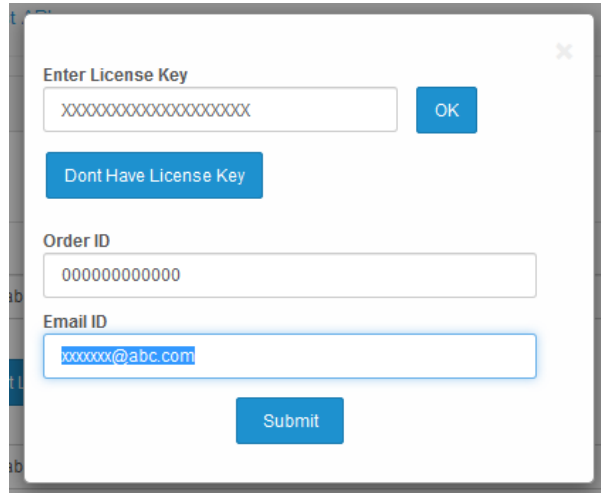

| Product Feed Name | Status | Action |
|-------------------|----------|---|
| Google Base | Disabled |   |
| Google Sitemap | Disabled |   |
| OpenBay Pro | Disabled |   |
| Rest API | Enabled |   |

- Set the Following Fields on this page.
 - Status** - This must be set to Enabled for Mobile app to work in **General Tab**.
 - License Key** - Click to **"Get License"** Enter the License key. This key is provided when you purchase the extension. Then Click to **'OK'** button.

The screenshot shows the 'Rest API' settings page. A modal dialog box titled 'Enter License Key' is open, containing a text input field with a placeholder 'xxxxxxxxxxxxxxxxxxxxxxxxxxxx', an 'OK' button, and a 'Get New License Key' button. Below the dialog, the 'Status' dropdown is set to 'Enabled'. A 'Get License' button is highlighted with a green circle. The footer of the page reads 'OpenCart © 2009-2020 All Rights Reserved. Version 3.9.3.3'.

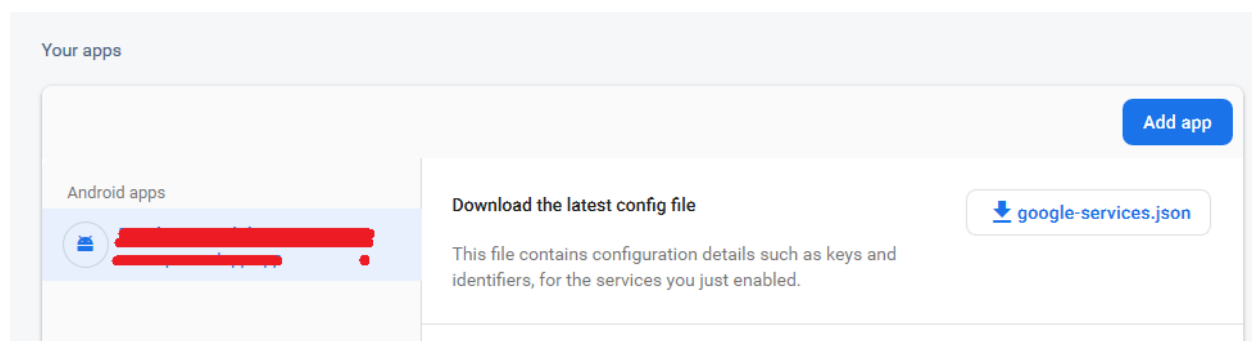

- In the Case of you don't have key or you Lost it .Then Click on **"Get License ' > 'Don't have License button'**. Enter your **Order ID** which was generated when you placed an order for our extension and **"Email ID"**. Click on Submit Button and your license key will be filled on License key field.

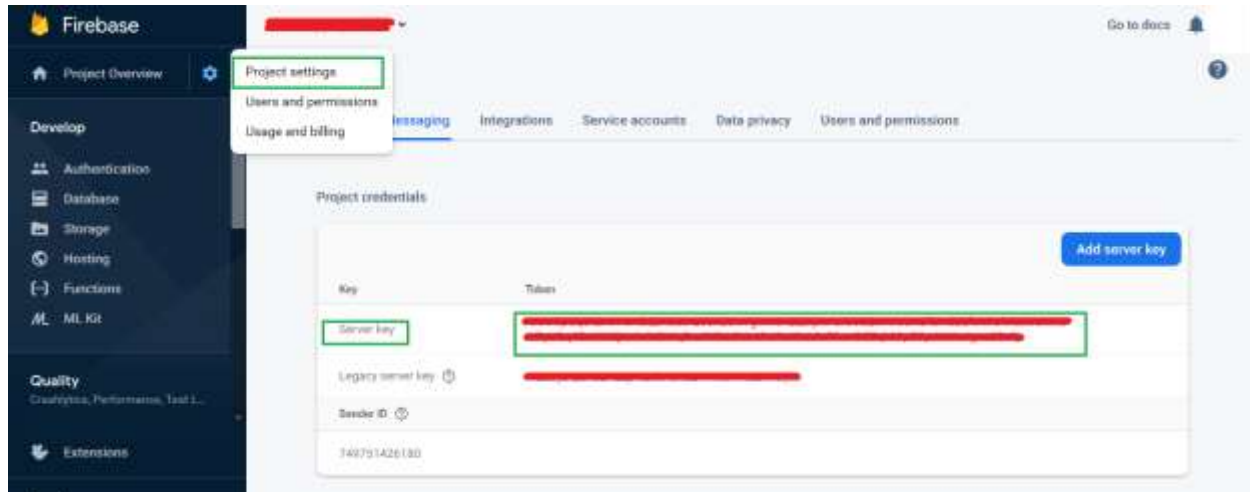

- If **Rest API** status is set to **Enabled**, then New tab would appear as **Notifications**. So in **Notification Tab** set the following fields.

Firestore Push Notification

- **Firestore Push Notification** – If Enable this to receive Push Notifications on Mobile.
- **Firestore API Server Key** – Create Firestore account using following Steps
 - Login to <https://console.firebase.google.com> and Create your Project for Push Notifications.
 - For More info just Follow **Option 1** from the Firestore Documentation upto **Step 3.1** - <https://firebase.google.com/docs/android/setup>
 - Add Your Mobile app and Download **google-services.json** File which we need while creating Mobile app.

- Now For key Click > **Project Overview** > **Project Settings**.
- Now go to Cloud Messaging Tab.
- From there Copy **Server Key** and use it in admin.
- If no Server Key is available Add New Server Key.
- Do not Delete the Server key which is being used in Website Admin or push notification will stop working.

Push Notification on New Product Addition –

- Set the Status for **Notification on New Product Addition** to **Enabled**.
- If **Enabled**, Admin would be able to **Select Categories for Product Addition**, so that Push Notification would only work for Particular Category products only.
- In **Categories for Product Addition** Select **Allow All Categories** or **Allow Selected Categories**, and select or remove categories if required accordingly.
- In **Title for Add Product**, there would be Title which will come in push notification, Default value has been set to **New Product Added**. You can also use **_NAME_** variable in title as **Product Name** for default language set.
- In **Message for Add Product**, it would be message which will come in push notification message. You can also use **_NAME_** variable in title as **Product Name** for default language set.

| | |
|--------------------------------------|--|
| Notification on New Product Addition | Enabled |
| Categories for Product Addition | <div>Allow all categories</div> <div>Allow selected categories</div> <div>Allow all categories</div> <div>Cameras</div> <div>Components</div> <div>Components > Mice and Trackballs</div> <div>Components > Monitors</div> <div>Components > Monitors > test 1</div> <div>Components > Monitors > test 2</div> <div>Components > Printers</div> <div>Components > Scanners</div> |
| Title for Add Product | <div>New Product Added</div> <div>Note use this variables:- _NAME_(for Product name)</div> |
| Message for Add Product | <div>_NAME_ has been added in store. Click to Shop</div> <div>Note use this variables:- _NAME_(for Product name)</div> |

Push Notification on Order Status Change –

- In Notification Tab **Enabled** the **Notification on Order Status Change**.
- Below you will see List of all the Order Status with **Status** and **Template**.
- Add/ Edit **Template** for each order state and status which will be sent to customer on order Status change.
- You can only create 1 template for Order State and Order Status combination.
- Please Note use these variables:- _NAME_ (for Customer name), _ORDERID_ (for Order id), _AMOUNT_ (for Amount) in **Template** for dynamic data.

User Permissions

If Purpletree Multivendor is installed please follow the Steps below also else ignore steps 1 - 6

1. Now go to admin > System > Users > API
2. Click on + sign to create new API

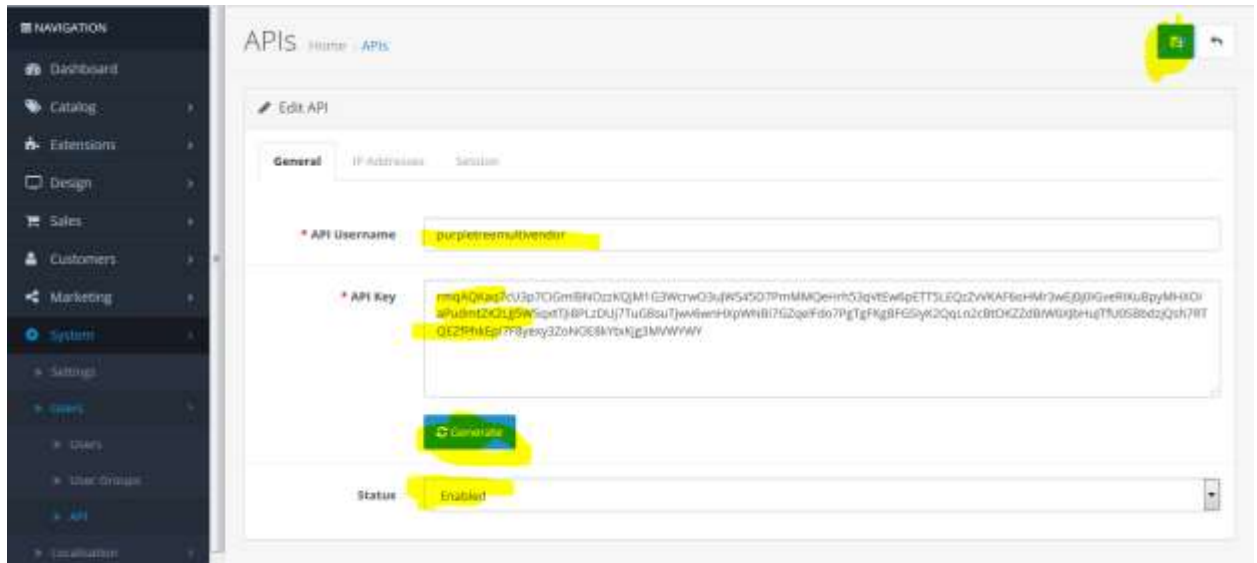

The screenshot shows the Admin Panel navigation menu on the left with 'System' selected. The main content area is titled 'APIs' and contains an 'API List' table. The table has columns for 'API Username', 'Status', 'Date Added', 'Date Modified', and 'Action'. There are two entries: 'Default' and 'purpletreemultivendor', both with a status of 'Enabled'. A '+ sign' button is visible in the top right corner of the table area.

| API Username | Status | Date Added | Date Modified | Action |
|-----------------------|---------|------------|---------------|--------|
| Default | Enabled | 16/03/2018 | 16/03/2018 | |
| purpletreemultivendor | Enabled | 08/10/2018 | 08/10/2018 | |

Showing 1 to 2 of 2 (1 Page)

OpenCart © 2009-2018 All Rights Reserved.
Version 3.0.2.0

3. Enter Username as “**purpletreemultivendor**” and Generate API Key on click of Generate

4. Keep API Key safe we will use it in on building this in app for authentication.
5. IP Address filed is required so enter any ip address in the tab.
6. Save this API.

Sending Custom Notification Message to All App users

Admin can send Push Notification to All Users which have installed the Mobile app. Once Rest API and Push Notifications are Enabled from Settings Above, New menu will come in admin left side as –

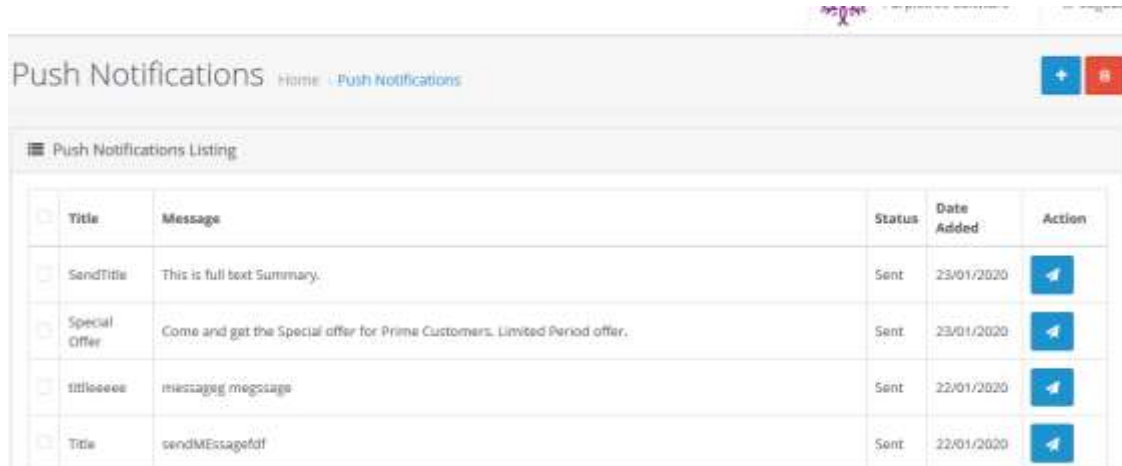

Purpletree Mobileapp

- **Push Notifications**
- **App Users**
- **Settings**

- **Push Notifications** - In this page there a list of Push Notifications Send by admin to All Customers. Admin can Add New, Resend and Delete Push Notifications at any time.
 - **Title** – Title of Message Sent.
 - **Message** – Message Text which is being sent.

- **Status** - If Notification is Sent to users then it will Show **Sent** Status else it will Show **Not Sent**.
- **Date Added** – The Date on which Push Notification is Added.
- **Action** - To **Resend** the Same Notification to all users' weather it is **Sent or Not Sent**.
- **Delete** – Select Checkbox in front of each item and Click on Delete Button on top.

Push Notifications Home > Push Notifications

Push Notifications Listing

| <input type="checkbox"/> | Title | Message | Status | Date Added | Action |
|--------------------------|---------------|---|--------|------------|--------|
| <input type="checkbox"/> | SendTitle | This is full text Summary. | Sent | 23/01/2020 | |
| <input type="checkbox"/> | Special Offer | Come and get the Special offer for Prime Customers. Limited Period offer. | Sent | 23/01/2020 | |
| <input type="checkbox"/> | titleeeee | message megasage | Sent | 22/01/2020 | |
| <input type="checkbox"/> | Title | sendMessagefdf | Sent | 22/01/2020 | |

- **Add New Push Notification** – Click on Add button. A Form will Open then enter **Title** and **Message** to send to all Users. Click on Send Button. Both Fields are required to Send Message
- **App Users** – It shows the listing of all users who have installed the Mobile app.
 - **Token** – This is unique token Generated by app.
 - **Device ID** – This is also Unique Device id of Mobile app.
 - **Customer** – If Customer registered on mobile app it will show **Customer name** with link else it will show **N/A**.
 - **Registration Timestamp** – When user is registered on app.
- **Push Notification on Order Status Change** – When Admin change the order status by going to **Sales > Orders > View Order**.
 - **Add Order History** –
 - Admin Select the Order Status from Dropdown.
 - Click the Checkbox **Notify Customer**. This must be **checked** for Push Notification to work.
 - Click on Send Button.
 - The Template which we set previously for the **Selected Order Status** will be used and Customer would receive notification as “Hello **demo User** Your order no #50 has been **Complete**.”
 - Notification will only be sent if Status is changed; if same status is being set again No Notification will be send.

- **Shipping Rates**– View list of shipping rates for seller shipping.

The screenshot shows the 'Shipping Rates' screen of a mobile application. At the top, there's a status bar with 'Vodafone IN', 'Dolphin|BSNL MOBILE', and the time '5:55 pm'. Below the status bar is a navigation bar with a back arrow, the title 'Shipping Rates', and icons for a user profile and a shopping bag. A search bar is located below the navigation bar. Under the search bar, there are two input fields labeled 'Zip From' and 'Zip To', followed by a purple button with a white funnel icon. The main content area is titled 'Shipping Rates' with a blue plus icon to its right. Below this title is a table with the following data:

| Country | Zip From | Zip To | Price | Action |
|---------------------|----------|-----------|----------|---|
| Antigua and Barbuda | 4564564 | 456456456 | \$456.00 |  |
| Albania | 201504 | 201503 | \$20.00 |  |
| India | 160061 | 160071 | \$11.00 |  |
| India | 201205 | 201250 | \$10.00 |  |
| India | 201204 | 201210 | \$11.00 |  |

At the bottom of the screen, there is a navigation bar with three icons: a house icon labeled 'Home', a person icon labeled 'Account', and a shopping cart icon labeled 'Cart'. Below the navigation bar is an Android-style back button.
