

Reward Points on Order

USER GUIDE

REWARD POINTS ON ORDER

FOR OPENCART 3.X AND 2.X

This extension adds reward points to customer accounts at the time of their first order.

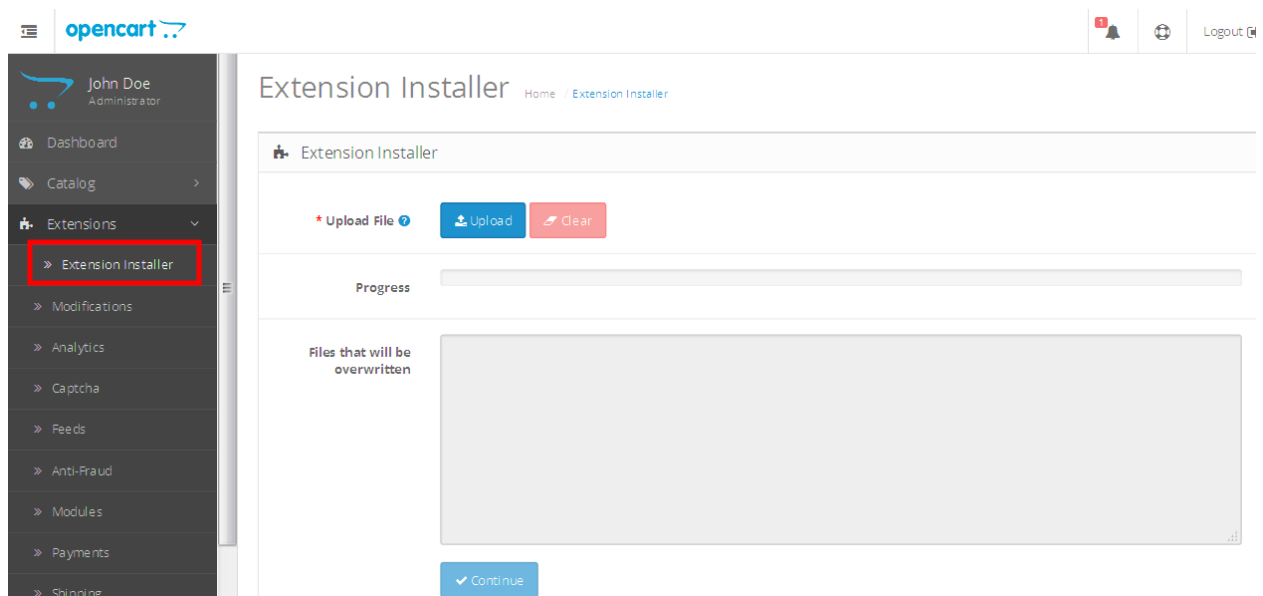

Number of reward points to be added in customer account is configurable.

1 INSTALLATION

Before installation, make sure the OpenCart Extension Installer is correctly configured, especially for the FTP settings, including the FTP Root. See <http://docs.opencart.com/extension/installer> for more details.

1.1 FOR OPENCART VERSION 2.X

1. Go to "Extensions"->"Extension Installer".

The screenshot shows the OpenCart administrator interface. On the left is a dark sidebar menu with the user name 'John Doe Administrator' at the top. The 'Extensions' menu item is expanded, and 'Extension Installer' is highlighted with a red box. The main content area is titled 'Extension Installer' and contains an 'Upload File' section with an 'Upload' button and a 'Clear' button. Below this is a 'Progress' bar and a section titled 'Files that will be overwritten' with a large empty box. At the bottom of the main area is a 'Continue' button.

2. Upload the extension zip file reward_points.2.x.ocmod.zip.
3. Go to "Extensions"->"Modifications". You should see an entry for this – "Purpletree Reward points for OpenCart 2.x":

Modifications Home / Modifications

Whenever you enable / disable or delete a modification you need to click the refresh button to rebuild your modification cache!
